JMP at eCademy focuses on learning life skills, social skills, employability, financial stability, and how to be successful in the workplace. Students explore industry clusters and pathways, and develop plans for career and academic development.

Students earn elective credits each semester through course instruction, job shadowing, and volunteering. This course is designed to provide flexibility for students.

This program includes:

- Direct instruction, interactive skill demonstrations, and practice assignments
- Activities to help identify personal interests, aptitudes, and learning styles
